

2008 Summer Conference
Presented by the Sacramento Sierra Chapter of the Appraisal Institute
Dante Club; 2330 Fair Oaks Blvd., Sacramento, CA 95825

Thursday, August 14, 2008
Registration starts at 8:00 am; Seminar, 8:30am – 4:30 pm

The morning session will include a panel discussion with different client types (banks, public agencies, etc.) moderated by Mr. Marshall Meager, MAI, with Wachovia Bank. The second half of the morning session will be presented by Dawn Molitor, SRA and include discussions on recent agreements that have significant impact on appraisers.

The afternoon has an emphasis on green construction, an increasingly important topic for appraisers, as aspects of green construction and cost-saving features are important for appraisers to understand and properly value "green" buildings. All three speakers are experienced in "green" construction and retrofit. They will provide construction and operational cost information on various aspects of green construction.

Complete details of the seminar be found by following this link:
